

1995 Vauxhall Cavalier Mk3 Concept 1.6

Limited Edition and 1 of 15 cars left on the road and 40 altogether in the uk. The concept was a budget friendly option but was still a nice looking example even though it was value for money. This car has been meticulously maintained and has every document from new including original dealer brochure and only has 89k miles. This car was also previously owned by a fellow NWCC member Dave Squires
