

Alan's car

Bought our Rover 95 P4 in December 2021. Over the winter some welding + paint has been sorted. Interior is in very good + original condition, only parts that needed attending was some stitching to the seat bases. Before we bought the car, money had been spent reconditioning the engine, a new clutch fitted, also a new fuel pump + radiator.

We fitted new tyres + she sailed through a safety inspection with no advisories.

Registered in Liverpool, she has spent all her years on the Wirral or the Liverpool area. We have christened her THE DUCHESS
