

Eil + Alans car

Gifted to us in 2000 in a sorry state, had been left to the elements.

Over the years it has been resprayed, new wiring loom + new tyres, new hood + side screens made.

The donor car was a 1967 Triumph Vitesse 2 litre straight 6. All the running gear was used + the registration was transferred. The car was built in 1980 making it a very early Roadster. The Marlin has won 2nd place at Tatton Park in the kit/replica class in 2014 + a number of 1st, 2nd, 3rds at other events. Known as ELM0E because of the registration being LM0995E
