

# Steve T's Volvo

The car is originally from the Bournemouth area and was in the same family from new until 2014 when it was purchased by a collector. He kept it for one year but had to sell it when he lost his garage/storage. The next owner, from Retford, bought it on a whim in July 2015 but, unfortunately, his wife didn't approve and she gave him an ultimatum. As he really didn't want to move out of the family home, he put it up for sale in September 2015, which is when I purchased it.
