

Steve, Volvo 240

319 miles. We decided on having a long weekend in the Yorkshire dales and rented a cottage just outside Leyburn. Setting off on Friday morning, we took sandwiches with us and had a picnic by the river in Kettlewell then carried on to take in Aisgarth Falls before find our cottage in the village of Harmby.

Over the weekend we visited Leyburn, Richmond, The Forbidden Corner near Middleham and Hawes. On the way home on Monday we looked in at the Embsay Railway, although it was closed, and spent a couple of hours in Skipton. We arrived home about 4pm Monday afternoon.

Instead of meet up. Booze Cruise for necessary supplies Sunday 16 August

A trip from Neston to Paysanne in Deganwy to collect the last of the wine in the country from the Beziers Region. Both St Chinian Red and some Rose. More important than a meet up as we are stopped from a trip to France.

Would recommend a trip to Paysanne when they can open. But a night's stay will be required.

Bruce and Penny

David Collier 1997 Lexus LS 400. 188 miles

Another lovely run out in the sun to see my brother and his wife at their new home in Ruyton XI Towns in Shropshire. After an enjoyable homemade quiche and salad in the garden we drove into Shrewsbury for a pre-booked river cruise, then for a stroll in the park with an ice cream then into town to see the historic buildings. finally got home to Swinton at 10.30pm, very tired.

David Collier 1990 Wartburg Tourist 130 miles

Today went on a very hot road trip to Crich tramway village in Derbyshire, but stopped off at Matlock to collect a Facebook impulse purchase of another tuba. i already have five. the village was great and even has a pub. on the way home we stopped at Monsal head for an ice cream and a walk along the viaduct. great weather, great countryside and great company.

Outing with the Girls from Work

A short trip out for the Morgan yesterday to meet up with the

ladies from work for a lunch date. They have never seen the car in the flesh so to speak and two of them thought they try it for size!
