

Phil's MGB

1978 MGB roadster.

CFE 801S

1978 MGB.

I was originally exported to Virginia USA , I was repatriated in 1997 where I was converted to right hand drive and changed my colour from green to red.

I still have some of my USA specification. Can you spot what they are ?

I have also had some specification improvements including telescopic dampers and a sports exhaust system..

I have had 4 previous owners and was owned by Mr Gary Baxter 808 Prince Philips Drive, Virginia Beach VA 23452.

My current owner rescued me and has re-commissioned me and has been restoring me as and when his Wife allows him.

I am used whenever the opportunity arises as my owner enjoys driving me not polishing me
